

Security Alarm and CCTV Engineer – from £25k + callout

About Us

The Alarm People Ltd are an established, Fareham-based NSI accredited security company. We provide high standards of service to a range of domestic, commercial and public sector customers across the South of England. Many of our customers have been with us for years - they are a great bunch of people - and so we are looking for someone whose professional, personable, genuine desire to meet our customers' needs comes across in everything they do. As a team, we enjoy what we do, we do it well and we have a lot of fun in the process!

We offer excellent benefits including a company van, company pension, iphone, laptop, 20 days holidays rising 1 day per year up to 25, flexible callout rota and overtime opportunities. This is a full-time position, Monday to Friday, 37 1/2 hours per week.

The Role

The successful candidate will have a minimum of 2 years experience within the security industry. Experience in an installation engineer role is important as is the ability to demonstrate knowledge of both Commercial & Domestic Intruder and CCTV systems. The job is varied and will include a mix of installation and maintenance work and because of this we will provide support to develop your skills in the areas you would like to enhance.

From day to day, you will be expected to:

- Install and commission alarms and IP CCTV systems efficiently and accurately to NSI standards
- Conduct thorough, routine preventative service and maintenance visits on a range of systems including alarms, IP CCTV, access control, fire systems and emergency lighting
- Be prepared to travel within a 90 mile radius of our Fareham offices when needed, though most of our work is within Hampshire
- Be available unsociable hours to cover emergency callout duties on a rota basis (for which you will be remunerated in addition to your basic salary)

Your work ethic and customer service standards are for us as important as your current skills on security systems.

We would especially like to hear from applicants who are:

- Punctual and presentable
- Possess a high level of communication skills
- Thorough and accurate in their work
- Creative and unflappable when unexpected situations arise
- Proactive and approachable so that customers expectations are surpassed
- Willing to learn to use new technology

- Positive in their approach to their work

To Apply

Please send us your CV detailing your employment history and include two references. References will only be checked if you are invited to an interview and you will be notified prior to this stage. At least one of your references should be your current or most recent employer.

Note that all our employees are subject to a criminal records check.

Feel free to get in touch for an informal discussion on 01329 822044.

Please ensure your CV includes the following details:

- Education History
- Qualifications
- Complete Work Experience
- Any in depth experience or knowledge you have of particular equipment
- Hobbies or volunteering experience
- 2 Referees, including your current employer
